## SUPPLEMENTARY INFORMATION:

### Background

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of the Service's endangered species program. To help guide the recovery effort, the Service is working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for conservation of the species, criteria for recognizing the recovery levels for downlisting or delisting them, and initial estimates of times and costs to implement the recovery measures needed.

The Endangered Species Act of 1973, as amended, (Act) (16 U.S.C. 1531 *et seq.*) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, requires that a public notice and an opportunity for public review and comment be provided during recovery plan development. The Service will consider all information presented during a public comment period prior to approval of each new or revised recovery plan. Substantive technical comments will result in changes to the plans. Substantive comments regarding recovery plan implementation may not necessarily result in changes to the recovery plans, but will be forwarded to appropriate Federal or other entities so that they can take these comments into account during the course of implementing recovery actions. Individualized responses to comments will not be provided.

The species being considered in this recovery plan is *Marsilea villosa*. The areas of emphasis for recovery actions for this species are, KoKo Head and Lualualei on O'ahu and Kamaka'ipo on southwestern Moloka'i. Recovery efforts will focus on securing habitat and managing it to remove threats by competition from invasive exotic plant species, small population sizes, habitat degradation by off-road vehicles, and, possibly, trampling by cattle. Current populations will be enhanced and new populations will be established.

### Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified will be considered prior to approval of the plan.

**Authority**

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

**Bureau of Land Management**

[ID-030-04-4060-05; IDI-30066]

**Intent To Prepare Amendment to the Medicine Lodge Resource Management Plan (RMP)**

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Intent to Prepare Amendment to the Medicine Lodge Resource Management Plan (RMP).

SUMMARY: The following described public land in Jefferson County, Idaho, will be examined for possible disposal by direct sale under sections 203 and 209 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1713 and 1719.

Boise Meridian, Idaho.

T. 6 N., R. 33 E.,

Sec. 14;

Sec. 15, E $\frac{1}{2}$  and SW $\frac{1}{4}$ .

The area described contains 1,120 acres in Jefferson County. This area was formerly part of a Department of Energy (DOE) withdrawal for the Idaho National Engineering Laboratory. The withdrawal was in existence prior to development of the Medicine Lodge RMP and therefore the 1,120 acres was not addressed in the plan. The DOE recently relinquished this acreage to BLM for possible siting of a regional landfill. The amendment is being prepared to evaluate a land tenure adjustment and insure conformance to the existing plan.

An environmental assessment will be completed for this action. If the land is found suitable for disposal, the United States would offer up to 1,120 acres for direct sale to Jefferson County at fair market value. The public is invited to provide scoping comments on the issues that should be addressed in the planning amendment and environmental assessment. Planning criteria which will be used to prepare this planning amendment can be reviewed at the Bureau of Land Management, Idaho Falls District Office, 940 Lincoln Road, Idaho Falls, Idaho.

For a period of 30 days from the date of publication of this notice, interested

parties may submit comments to District Manager, Bureau of Land Management, 940 Lincoln Road, Idaho Falls, Idaho 83401, (208) 524-7500.

Dated: November 29, 1993.

Lloyd H. Ferguson,

District Manager.

(a) Lost sales and business opportunities in Arab League countries and/or Israel arising from being blacklisted or from seeking to avoid such blacklisting;

(b) Increased costs of sourcing and transportation resulting from the boycott as well as boycott compliance costs, including legal costs and direct and indirect costs associated with compliance with anti-boycott laws;

(c) Distorted or foregone investments in either the Arab or Israeli markets resulting from the boycott as well as investment diverted from or denied to blacklisted U.S. businesses due to association with Israel.

The request letter notes that the Commission may need to undertake an assessment of the scope of the boycott, the degree of enforcement on a country by country basis, and the degree of compliance with the boycott by U.S. businesses.
